

Freixenet Brut Cava Blanc De Blancs

Light Bodied - Full baked apple and vanilla flavors create a velvety softness in the mouth. Blanc de Blancs is Freixenet's creamiest style brut. It is considered an easy introduction to Cava for those who have little wine experience, yet is developed enough for the most sophisticated of palettes. The Blanc de Blancs carries a refreshing light and soft taste. The full baked apple and vanilla flavors create a velvety softness in the mouth.

Backed by over 150 years of family-owned wine expertise, Freixenet's exquisite cavas, artfully produced in the methode champenoise tradition, are Spanish sparkling wines of distinction that began their story with love. The romantic union of two of Spain's oldest winemaking families began with a wedding that also brought the wineries under one roof as a business. Prospering through all of life's joys, and enduring its sorrows, the Freixenet winery transformed its small start into a name known around the world. Gracefully gathering compliments, awards, and millions of cava fans, Freixenet applies the highest standards in winemaking for consistent quality and value. The third and fourth generations of the Ferrer family continue to attend to all the details that make their cavas the world's preferred sparkling wines.
